Sjukvård utomlands för sjuka eller funktionsnedsatta barn

För sjuka och funktionshindrade barn kan vård utomlands vara ett komplement till den svenska sjukvården. I regel behöver en förälder vara med barnet och delta i behandlingen.

För att ni ska kunna få tillfällig föräldrapenning ska ni kontakta Forsäkringskassan innan ni reser utomlands för att få ett medgivande. Medgivandet kan vara skriftligt eller muntligt. Skriftligt medgivande får du genom att ansöka på Mina sidor eller skicka in pappersblankett.

Begäran om medgivande vid utlandsvistelse

Fyll i blanketten direkt och skicka in den elektroniskt (kräver inloggning)

The screenshot shows a web browser window displaying the page www.socialstyrelsen.se/healthcare-visitors-sweden. The browser's address bar and tabs are visible at the top. The website header includes the Socialstyrelsen logo, a search bar, and navigation links for 'Listen SE Svenska NM National' and 'Other Languages'. A horizontal menu below the header contains 'Start / Healthcare-visitors-Sweden', 'Where to go for medical care in Sweden', 'About the Swedish healthcare system', and 'Healthcare complaints'. The main content area features a large blue banner with the title 'Healthcare for visitors to Sweden' and a photograph of a group of people walking on a staircase. To the right of the banner is a 'Contact' section with the text 'Socialstyrelsen +46 (0)75 247 30 00' and an 'External links' section with a link to the European Commission. Below the banner, there are social media icons (Twitter, Facebook, YouTube, LinkedIn) and an RSS icon. The main text explains that the following web pages are for people who require healthcare in Sweden but are covered by social security insurance in an EEA country. It also states that as a visitor to Sweden, one is entitled to health and medical care on the same financial terms as Swedish residents, provided they show their European Health Insurance Card (EHIC). A bulleted list includes a link to the European Commission for more information about the EHIC card. The text concludes with 'Prior authorisation is sometimes required' and 'In some cases, prior authorisation is required before seeking medical care in Sweden. Implementation of the Directive 2011/24/EU

The Swedish national law (2013:513) came into force on 1 October 2013.

Law 2013:513

The grounds for reimbursement:

- The treatment was given in another EEA country.
- The patient had Sweden as its Member State of affiliation at the time when the treatment was given (see also Article 20 of the BR).
- The treatment was given by a health professional (Directive 2005/36/EC).

Challenges

The patient has received a treatment which is not provided in Sweden.

- Reimbursement shall be granted if the treatment method is *”evidence based and in accordance with clinical practice”*.

Challenges

The patient has paid more for the treatment in the other EEA country.

- The level for reimbursement shall not be higher than the actual cost. The maximum amount of reimbursement is limited to the equivalent care costs in Sweden.

Challenges

The Swedish Social Insurance Agency makes the decision but the county council in which the patient is resident is liable for the costs.

- The decision is based on an opinion from the county council.
- The opinions are not always sufficient.
- A patient has the right to receive a decision within 90 days.
