A strong patients' voice to drive better health in Europe

// MARCH 2016 ISSUE

A WORD FROM OUR PRESIDENT AND OUR SECRETARY GENERAL

First of all, we would like to express our gratitude to all our members and colleagues for their messages of support during the tragic events that took place in Brussels last week. In a city hosting numerous European associations, on that day, more than ever we felt part of a united community.

Difficult as it is in these sad times, we continue to pursue unrelentingly our vision: to ensure all patients with chronic and/or lifelong conditions in the EU have access to high quality, patient-centred equitable health and social care.

*With this in mind, on the 22nd and 23rd of March, EPF went ahead with its **Annual General Meeting** (AGM) bringing together more than forty members for two days of governance affairs, exchange and learning.*

*I, Marco Greco, had the privilege and the honour to be elected as President of EPF. Our members also elected **5 new Board members** and the EPF family is happy to welcome **4 new members**. We had the opportunity to thank Anders Olauson, President of EPF since 2005 for his extensive contribution to our organisation, awarding him the lifelong position of Honorary President.*

*Some important news as well regarding our **Patient Empowerment Campaign!** An EPF delegation met with a number of MEPs on the 14th and 15th of March to present the Charter on Patient Empowerment. This has led to further commitments and deeper involvement of key MEP champions in the lead up to our Round Table session in the European Parliament in June.*

*Earlier this month, EPF participated in two **workshops** of the European Medicines Agency, on **Information about Medicines** and **Health Literacy**. The workshops gave the opportunity to patients and healthcare professionals to exchange views on these important topics for patients.*

*EPF also took an active part in an event organised by the **European Forum for Good Clinical Practice** (EFGCP), where participants discussed faster and safer path to medicines and medical devices.*

*On the 11th of March, EPF was invited by DG SANTE to present its work on **cross-border healthcare** in an event organised by the Cross-border Healthcare Expert Group of the European commission.*

*Our **Position Paper on Access to Healthcare** from the perspective of the patients is now available on our website! Thanks to the input of our members, this balanced paper provides helpful information on the definition of access from the patients' perspective.*

*The EPF **Capacity Building Programme** is still going strong with a recent training meeting in Bulgaria, with dedicated sessions on communication strategy and projects leading.*

*On our blog, you will find a report of the **Declaration Festival!** The first International Festival of Health and Human Rights took place in Glasgow on the 11th of March. The event is an initiative of a coalition of health-related alliances in Scotland, including our member there, and focuses on the rights of mental health patients*

Warmest greetings,

Marco Greco, EPF President and Nicola Bedlington, EPF Secretary General

Manf
