// APRIL 2016 ISSUE

A WORD FROM OUR PRESIDENT AND OUR SECRETARY GENERAL

Welcome to the April issue of the EPF newsletter.

*A very rich publication this month, with many updates on EPF and our members' activities! Let's start with a **save-the-date** for a high level policy roundtable in the European Parliament in the framework of our campaign on **Patient Empowerment: pencil in the 22nd of June** in your diaries! We will discuss how we move forward with the conclusions of the campaign and implement the Charter and Roadmap.*

*EPF was again very active in **meetings**, with participation in panel debates in the European Parliament about the **value of health**; in a Brussels workshop on ethical review in **clinical trials**; at DIA Europe in Hamburg, to discuss **innovation** in medicines and in Vienna to explore **patient involvement in radiology** settings.*

*Earlier this month, EPF published two important **papers**: a preliminary statement on the **pricing and reimbursement** of innovative medicines, and a position statement on the implementation of the **Cross-Border Healthcare Directive**. These papers reaffirm our vision of equitable access to high quality healthcare systems, and are very timely with the current EU level debates led by the Dutch EU Council Presidency and the European Commission.*

*Some updates as well regarding our **Capacity Building Programme**! The fundraising module set up for patients' organisations in **Hungary** is now officially completed and we are already seeing impressive results from participating organisations. On 7 April 2016, the World Health Day put diabetes in the spotlight, the Joint Action **CHRODIS**, in which EPF is a partner, issued a policy briefing on National Diabetes Plans.*

*In the framework of **EUPATI**, the European Patient Academy on Therapeutic Innovation, 50 trainees convened in Barcelona for a week long face to face meeting, as part of the EUPATI training course.*

*We are very proud to open our blog to our members and friends. This month, we propose you no less than 4 entries to discover the work and activities of our members! You will read an interview of one of our brand new members elected at our AGM in March, the **International Federation of Spina Bifida and Hydrocephalus (IF)**, as well as an invitation to a conference organised by **EURORDIS**, the European rare diseases organisation. The **EPF Youth Group** also features in good place, with reports of two recent meetings about their roundtable to transition to adult care, and their annual spring meeting, that both took place in Brussels.*

Warmest greetings,

Marco Greco, EPF President and Nicola Bedlington, EPF Secretary General
